General Notes

1. Engine oil recommendations, model year 2000 onward (vehicles from 05/99) with variable service intervals using LongLife oils. Only vehicles identified appropriately by VIN plate markings and/or dealer service label for Variable Service are capable of operating to the maximum change intervals.
2. Engine oil recommendations pre 1/97: EO VWG 501.01 for petrol engines and naturally aspirated diesels; EO VWG 505.00 for all diesels including turbocharged models. Combinations of EO VWG 501.01 and EO VWG 505.00, covered by a 'low ash' version of EO VWG 505.00, are recommended for all engines. Viscosity options: temperate climates, 15W-40/15W-50/ 20W-40/20W-50; below 15°C, 10W-30/10W-40. SF or SG oils may be used for petrol engines if the approved types are unavailable. CD oils are approved for diesel engines (top-up only for turbodiesels)
3. Power steering/Central Hydraulics (where fitted): Refer to Technical Assistance. Please, contact your local AGIP dealer. Some early models: AGIP ATF II D. Refer to handbook
4. 4X4 models using the Haldex clutch system; only use VW specified oil
