

eni i-Sint tech F 5W-30

eni i-Sint tech F 5W-30 is an advanced fuel economy passenger car motor oil formulated from synthetic base stocks and state-of-the-art additive technology. It is specifically developed to exceed the service fill requirements of most recent models of Ford requiring an oil meeting the M2C-913C specification. It is also backwards applicable for earlier FORD models for which an oil meeting the 912 or the 913 A/B specifications are prescribed, as well as to any other vehicle requiring an ACEA A1/B1 or ACEA A5/B5 oil.

Characteristics (typical figures)

SAE Grade		5W-30
Viscosity at 100 °C	mm ² /s	10.0
Viscosity at 40 °C	mm ² /s	55
Viscosity at -30 °C	mPa·s	6100
Viscosity Index	-	171
Flash Point	°C	210
Pour Point	°C	-33
Mass Density at 15 °C	kg/m ³	0.850

Properties and Performance

- eni i-Sint tech F has outstanding stability which decelerates oil degradation and thus allows extended oil change intervals
- Thanks to its general characteristics and notably to friction modifying agents, it maximizes fuel economy.
- It provides optimum cold start properties
- excellent wear protection
- low oil consumption

Specifications

eni i-Sint tech F meets the requirements of the following service specifications:

- * FORD M2C-913C
- * FORD M2C-912/913 A/B
- * ACEA A5/B5
